

# Logan Weir

Proactive, well rounded engineer and manager with a decade of experience helping companies deliver value and/or squash chaos. I've helped robots paint nails and shoppers checkout with AI.

## EXPERIENCE

### **CLOCKWORK** | Member of Technical Staff

March 2023 - January 2025 | San Francisco, CA

- Built internal tools that enabled support ops to remotely monitor 5x more active appointments with multiple video feeds and a replicated, interactive GUI per robot.
- Built the customer self-help layer and maintenance mode which together reduced support calls by 30%.
- Built appointment data pipeline, migrated to realtime solution so support could jump into ongoing appointments w/ context.
- Built routines for power cycling robot components remotely, lowering support resolution times for related issues by 50%.
- Automated robot hard drive bringup with Ansible.
- Designed and built experimental top coat and gel coat GUI's. Recorded A/V content for the GUI and acted as a hand model.

### **STANDARD AI** | Senior Engineering Manager

December 2020 - September 2022 | San Francisco, CA

- Managed a team of 7 engineers across Asia/US/Europe working on three different projects. Developed technical interviewing framework for the company's Engineering Org. Hired four engineers for my team. Ran a PIP which led to a termination.
- Drove 'Catalog' service update from start to finish, enabling 10x more SKUs per store and reducing SKU time to support by 75%.

### **STANDARD AI** | Data Engineer, Machine Learning

September 2019 - December 2020 | San Francisco, CA

- Built Data Warehouse in Qubole, led migration to Databricks.

### **HUSTLE** | Machine Learning Engineer

October 2018 - July 2019 | San Francisco, CA

- Built company's ETL processes in Airflow and analyzed chat sentiment to demonstrate product efficacy to clients.

### **APPALLICIOUS** | Data Scientist

November 2013 - October 2018 | San Francisco, CA

## SKILLS

### **CODING**

Python  
Typescript / React  
HTML / SCSS

### **DATA**

SQL / Postgres / MongoDB  
Pubsub / Airflow  
PySpark / Databricks / Bigquery  
Looker / Sisence  
Qubole / Presto

### **INFRASTRUCTURE**

GCP / GCS / GCE / GAE  
Docker / Ansible / Terraform  
Retool / Datadog / Sentry

### **MANAGEMENT**

Hiring / PIPs  
OKR Definition / Tracking  
Team Syncs / Jira / Offsites  
Product / Design

## EDUCATION

### **Galvanize**

Data Science Bootcamp  
Spring 2018

### **Fordham University at Lincoln Center**

B.A. in Economics  
Class of 2012

## CERTIFICATIONS

American Red Cross Lifeguarding and  
First Aid Certification

## INTERESTS

Parenting  
Windsurfing / Sailing  
Burning Man / Land Sailing  
Biking / Bikepacking  
D&D / Dungeon Master
